The question "Does death end all?" is no longer determinable. It has utterly failed in the case of the Illinois Senatorial contest.

Russia will never realize what an antagonist she has in England until Tennyson's latest poem is translated, metered and all.

It is proposed to organize a Tammany society in Detroit. The Detractors appear to forget that it takes a John Kelly to make a Tammany.

The State House of Representatives entertained an Angel but not unaware on Tuesday night. The President of the University lectured before the members on China.

It is asserted that Henry Watterson came out of the President's library last Saturday with a smile on his face. The President must certainly have said something bad about Samuel J. Randall.

Mr. KELLY thinks, apparently, that the fact that he denounced the Italian government should be no reason for his not being sent as Minister to Italy. Perhaps Mr. Cleveland should send O'Donovan Rossa as Minister to England.

The fear of cholera is not without its compensations. In Philadelphia it is doing effective missionary work. A series of revival meetings in a church there has resulted in more than three hundred conversions, and the great incentive to piety appears to have been the fear of cholera. The church is composed of colored people.

A PUBLIC BENEFACITOR.

gang. They will get little sympathy from workingmen. A man who by his industry has earned for himself a home will not be found ready to divide his home with a Socialist, and if any division is made the citizen who seeks liberty, equality and fraternity and a division will be given the outside. He will find his share in the inside of a penitentiary the first move he makes to put his theory into practice.

The Detroit Post very sensibly suggests that there is plenty of land in this country that those Socialists can have. All they have to do is to go and take possession and go to work. Work is something that finds no favor among Socialist orators and no place in a Socialist's platform. Still the idea is worthy of their consideration. "Go West, young men. Go West."

CURRENT COMMENT.

Chicago Inter Ocean: Carter Harrison is evidently preparing to return on a committee.

Richmond, Va., Dispatch: Why not send the Illinois Legislature to the north pole and let it play a game of freeze-out?

New York World: Mr. Kelly would do better service to the country and the party by declining than by accepting a foreign mission.

Savannah, Ga., Times: Senator Colquitt was not sent to the United States Senate to represent the Methodist Church, but the Democracy of Georgia.

Calhoun, Ga., Times: We have good authority for the statement that an old horse belonging to Mrs. Prickett caught a live cat not long ago and ate it.

Detroit Post: Unless Mr. Gladstone declares war against Russia on or before the close of the markets on Thursday, this week, he will lose the confidence and support of all the buyers of wheat and provisions for April delivery in this country.

Chicago Evening Journal: The Michigan Legislature has passed a law creating the system of minority representation or cumulative voting in the election of officers of corporations. If the system does not work in Michigan corporations better than it has worked in the Illinois Legislature it will be a failure.

Lowell Journal: Representative Seller's bill to restrain the publication and sale of immoral books and papers should become a law. It is a measure directed against such villainous publications as the Police Gazette, as well as obscene literature in bound form. There can no good come out of such vile publications; nothing but bad—and very bad at that. The Sellers' bill aims to curtail the evil.

THE PLAY THAT HAS MADE ALL AMERICA LAUGH.

This performance has been greeted by enormous success, and the recurrent echoes of their voices laughter for the past two years in all the principal cities of this country from New York to San Francisco.
